Live Stream Project

We are pleased to report that since implementation of phase 2 of the Live stream Project on April 9th 2023, our beloved Parishioners who have not been able to attend Church in person now have the ability to watch in real time from the comfort of their homes.

We are happy to report that we have been receiving positive feedback from our parishioners and the General Public. However, the project is not completed as yet. We still have ongoing work that needs improvement before completion, including addressing the issue of the glare on the projector screen.

In order to finish this project, we are asking for your assistance to help make this happen. We would appreciate your continued support.

Thank You, Audio Visual Team
